Hey Kimi – I know you are totally swamped. I want to try and get this document back to Bruce before my surgery. Any chance you could get back to me on this question before I leave for the day on Thursday? I incorporated my comments in the margins on this on pp 21-22. Thank you!! Lucita

Lucita,

Here's my latest version. I dug deeper into the NRC EIS and was able to glean information pertaining to construction impacts on the species.

I touched up your other minor comments. Let me know if we need to add/change anything.
